

MATH 369-003: Linear Algebra I, Spring 2024

Instructor: Michael Epstein (michael.epstein@colostate.edu)
Office: Weber 111
Office Hours: TBD
Class Meetings: Tuesday/Thursday 9:30-10:45am, Engineering E 104

Prerequisite: MATH 156 or MATH 161 or MATH 255 or MATH 271.

Course Overview: Linear systems, matrices, subspaces of Euclidean spaces, linear transformations on Euclidean spaces, eigenvalues, eigenvectors.

Textbook: We will be using the book *A first course in linear algebra* by Ken Kuttler (Lyryx version) available at <https://lyryx.com/first-course-linear-algebra/>.

Calculators: A scientific calculator is allowed for this course. However, calculators which can perform symbolic computations or evaluate matrix operations are **not** permitted (this includes graphing calculators such as TI-83/84; if in doubt, ask your instructor if your particular calculator is acceptable). Cell phones, computers, and tablets may not be used as calculators on any quiz or test.

Important Dates:

Last day to add without override:	Jan 21	Last day to add with override:	Jan 31
Last day to drop:	Jan 31	Last day to withdraw:	Apr 12

EXAM SCHEDULE:

- Exam 1: Thursday, February 15
- Exam 2: Thursday, April 18
- Final Exam: Thursday, May 9, 2pm-4pm

Grading:

Homework and quizzes: 30%

Exam 1: 20%

Exam 2: 20%

Final Exam: 30%

Grade Distribution The grade distribution will be no stricter than the following:

A: 90%-100%

B: 80%-89%

C: 70%-79%

D: 60%-69%

F: Below 60%

Exams There will be two midterm exams and a cumulative final exam. The exam dates are listed above. No make up exams will be given, except for university excused absences with appropriate documentation. At the end of the semester, the lowest midterm score will be replaced with the final exam score if it is higher.

Homework We will use MyOpenMath for homework assignments. You will need to create a (free) MyOpenMath account in order to access the homework. One online homework assignment will be due most weeks during the semester. Unless otherwise specified, homework will be due on Tuesday evenings, and will typically cover the material from the previous week. Homework 13 is an exception to this and is due on the last day of classes, May 3. Two homework assignments will be dropped at the end of the semester.

Quizzes We will have in-class quizzes on Tuesdays which will generally cover the material from the previous week.

Announcements Important course information, updates, and announcements will be posted to Canvas. Be sure to check Canvas regularly for the latest information and announcements.

Accommodations: Colorado State University is committed to providing reasonable accommodations for all persons with disabilities. Students with disabilities who need accommodations must first contact the Student Disability Center before requesting accommodations for this class. The Student Disability Center (<https://disabilitycenter.colostate.edu/>) is located in TILT, room 121. Their phone number is 970-491-6385. Students who need accommodations in this course must contact the instructor in a timely manner (at least one week before examinations) to discuss needed accommodations.

Academic Integrity:

This course will adhere to the CSU Academic Integrity Policy as found on the [Student' Responsibilities page of the CSU General Catalog](#) and in the [Student Conduct Code](#).

The following are all violations of the Academic Integrity Policy:

- Cheating; includes using unauthorized sources of information and providing or receiving unauthorized assistance on any form of academic work or engaging in any behavior specifically prohibited by the faculty member.
- Plagiarism; includes the copying of language, structure, ideas, or thoughts of another, and representing them as one's own without proper acknowledgment.
- Unauthorized Possession or Disposition of Academic Materials; includes the unauthorized selling or purchasing of examinations or other academic work; stealing another student's work; unauthorized entry to or use of material in a computer file; and using information from or possessing exams that an instructor did not authorize for release to students.
- Falsification; any untruth, either verbal or written, in one's academic work.
- Facilitation; knowingly assisting another to commit an act of academic misconduct.

You may not use the textbook, class notes, or other resources on any quiz or test. You may not receive assistance from another person on any quiz or test. Using any unauthorized assistance on a quiz or test will be considered cheating.

You may work with a classmate or tutor on homework problems but you may not submit the problems to homework help websites or use AI to solve the problems.

Violations may result in a grading penalty in this course and/or a report to the Office of Student Resolution Center.

University Resources and Policies You can find some information on university policies and resources available to you at the following page: <https://col.st/2FA2g>
