

## MATH 261: Calculus III, Summer 2024

### Basic Info

Instructor: Daniel Tedeschi (he/they)

Contact: Canvas message or [tedeschi@colostate.edu](mailto:tedeschi@colostate.edu)

Office Hours: TBA

Class Times: MTWThF 11:15 AM - 12:55 PM

Location: Behavioral Sciences 103

Textbook: Multivariable Calculus 9th Edition - Stewart

Here is a [link](#) to the textbook. It costs \$56.49 to rent for the summer. If affording the textbook is an obstacle, please reach out and we can discuss other resources.

### Important Dates

June 10: Class begins

June 17: Last day to add/drop

June 19: No class - Juneteenth observed

July 4: No class - Independence Day Holiday

July 23: Last day to withdraw from course

### Grading Scheme

Your grade will be computed using the following distribution:

Homework - 30%, Quizzes - 20%, Midterms - 30%, Final Exam - 20%.

Homework: Turned in at the start of class on the listed due date. Your work should be organized, legible, and not written on the problem sheet. Late work will receive a 50% deduction, and will no longer be accepted one week past the original due date. Exceptions may be granted in extenuating circumstances, so long as you reach out in a timely manner.

Quizzes: Occur every Friday, except on exam days. At the end of the semester, your lowest quiz grade will be dropped. You must take all five quizzes for this drop to occur.

Midterms: Taken in class on 6/28 and 7/26.

Final Exam: Will be cumulative and taken in class on 8/2. Your final exam score may replace your **lowest** midterm score, provided you show improvement on the content from that midterm. You must take both midterms for this replacement to occur.

You will be assigned a letter grade at the end of the course using a scale no stricter than the following:

A: 90-100%, B: 80 - 89%, C: 70 - 79%, D: 60 - 69%, F: 0 - 59%.

Note: Your grade in Canvas will **not** reflect the quiz drop and/or midterm replacement.

### **Accommodations**

If you require Student Disability Center Accommodations for quizzes/exams, you must make arrangements with them and inform me one week in advance for each exam. (This is the same policy we had in Math 161.)

### **Life Circumstances**

If you are experiencing a serious, unexpected life circumstance that is affecting your ability to participate in the course fully, the best thing to do is to confer with the CSU Student Case Management. They will help you deal with these situations in a safe and professional manner. You are also more than welcome to talk to me directly and I am happy to help point you toward the right resources, if needed. Here is a [link](#) to Student Case Management.

### **Academic Honesty Policy**

The University Policy on Academic Integrity is enforced in this course, and the academic honesty penalties for this class are serious. **Turning in work that is not your own is a violation of the honesty policy and will result in serious consequences.** If you are struggling in this course, the best thing to do is to talk to me about strategies for improvement.
